Combining sleek, contemporary styling with the unparalleled strength of aluminum, the Trex Signature® railing collection is an ideal choice for virtually any commercial setting. With its straightforward, classic design Trex Signature spans long lengths for panoramic sightlines from balconies, patios, decks and public walkways. Additionally, it can be installed with continuously graspable rail options for added safety, comfort and functionality.

Available in three colors – Charcoal Black, Bronze and Classic White – Trex Signature is available in a variety of stock lengths to accommodate any commercial project needs.
